HEAVY DUTY REAR SHREDDERS

PROFESSIONAL USE

880 - 1495 Kg

80 - 150 HP

5

TPA shredder is a very strong machine projected for very demanding customers as farmer and as contractors. It can satisfy every type of cutting from grass to bushes, branches until 8-9cm diam. The rotor is built with a 245mm diam. Tube and tick of 16 or 20mm, the roller is a 10mm tick tube with diameters from 200 to 254mm. The rotor bearings have the massive cage in bronze, who assure a very long life. Every TPA model has three rows of counterblades made in Hardox 400 bolted on the frame. The gear box can be for 540 rpm or 1000 rpm, it is required to know in the moment of the order. the rotor is always equipped with the hammers, knives are not available for TPA.

Technical information

Model	Code	Cutting wide cm. 	Exterior width cm. 	Weight kg. 	HP Tractor 	Belt nrs. 
TPA 160	150160	160	185	880	80-90	5
TPA 180	150180	180	200	1000	90-100	5
